

Online 4-H Volunteer Training Opportunities

Washington State University e-Learning Course

This training includes four interactive, self-paced training modules, complete with review: "About 4-H," "Positive Youth Development," "Getting Started in 4-H," and "Leadership and Teaching." This e-Learning course was created by 4-H professionals from Washington State University and can currently be utilized by Ohio 4-H volunteers. It is a great opportunity for our volunteers to further learn about volunteerism and 4-H. If you would like to complete one of the modules please follow the steps below.....

1. Go to <http://4hvolunteerelearning.wsu.edu/volunteertraining/course.html>
2. Type in your name, state and the password of "volunteer".
3. Choose a module and follow directions to take the online quiz. You may print a certificate upon successful completion of each quiz.
4. Complete 3 Modules = 1 training Credit

Washington State University Livestock Based Trainings

Disease Prevention Module

The Disease Prevention Module is one of two modules brought to you by Veterinary Medicine Extension. This training module teaches you bio-security practices and how they can be used to reduce the risk of contracting and spreading diseases while raising 4-H livestock. It is a great way to learn disease prevention while providing you with inspiration and teaching ideas so you can bring these concepts to youth in your county!

Quality Assurance Module

Providing safe, wholesome products for consumers through 4-H projects.

The Quality Assurance Module is intended specifically for volunteer leaders and provides training, resources, and ideas to help prepare volunteer leaders to teach youth about quality assurance. This course was created in response to the need expressed by volunteer leaders throughout the state for an interactive on-line resource about quality assurance in 4-H livestock projects.

Housing Environments Module

Providing clean and comfortable environments to optimize livestock health and well being.

This is the third online training module offered through Veterinary Medicine Extension for 4-H Volunteer Leaders who work with youth livestock projects.

The Housing Environments Module is intended specifically for volunteer leaders and provides training, resources, and ideas to help prepare volunteer leaders to teach youth about livestock housing environments. This course was created in response to increasing concern over livestock health and welfare in this country and emphasizes the importance of optimizing housing environments to ensure 4-H livestock health and well-being in Washington State, while promoting human health and environmental stewardship.

Each module takes approximately 1 hour to complete. To receive credit, watch the module then complete the quiz at the end. Provide the Extension Office with a copy of your quiz score (this may be a screen shot). One module = 1 credit

Learn eXtension – Training Opportunities

Offers a wide variety of educational webinars that can be used to fulfil training requirements. To receive 1 training credit – complete one online webinar (live or previously recorded) and submit to the Extension Office the following:

1. Name of Webinar
2. Date Completed
3. Brief Summary of the webinar and how it will be utilized in your 4-H club
