UNIVERSITY**
EXTENSION

New Pesticide Applicator Training

A Private Pesticide Applicator's License is required for those who want to apply restricted-use pesticides on his/her own land (or rented land) and produce an agricultural commodity. ODA requires each private applicator to take & pass the CORE (safety) test and any category(ies) that correspond to the crops he/she produces. This training will focus primarily on the CORE test. There are 7 categories in which one may be certified via testing through ODA: 1-Grain and Cereal Crops, 2-Forage Crops and Livestock, 3-Fruit and Vegetable Crops, 4-Nursery and Forest Crops, 5- Greenhouse Crops, 6-Fumigation, and 7-Specialty Uses.

Cost includes CORE training workbooks, handouts, and light refreshments. Category study materials can be purchased at an additional cost (cost is \$25 if you already have your CORE workbooks).
